

Call for applications

Student Summer Research Fellowship 2019

Program

From July 1 to August 31 the Computer Science Department at ETH Zurich offers undergraduate and graduate students a research experience at an early stage of their studies:

- 2-month research experience at an international top university in computer science
- Pursue a research project that aligns with a chosen area of interest and be part of a research group
- Networking and socializing events
- Fellowship, travel, visa and living expenses covered.

Department of Computer Science

Our internationally renowned department pursues research across all areas of computer science, from the underlying theory to the design of practical systems. In the fellowship program you will be assigned to a group in an area of your choice.

[Research Areas](#) →

Zurich – Switzerland

Zurich is Switzerland's centre of economic life and education. Comfortably located in the heart of Europe, the city is known for its high quality of life and serves as a perfect starting point to explore Switzerland's natural beauty.
