

# We normalize AI.

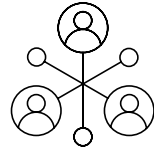

Gauss Labs revolutionizes manufacturing  
by building industrial AI solutions beyond human capabilities.

# Gauss Labs

Our mission is to become the world's most trusted industrial AI innovator. We create reliable, robust, and scalable AI technology for the most difficult and fundamental challenges industry faces. Our products and solutions aim to make enterprises more efficient, machines more intelligent, and humans more human.

# Why Gauss Labs?

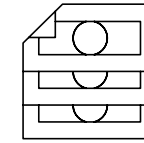

## The World's Best Team

Industry veterans and technical gurus with proven track records

## Large-scale Data

Access to real-world manufacturing data and domain knowledge

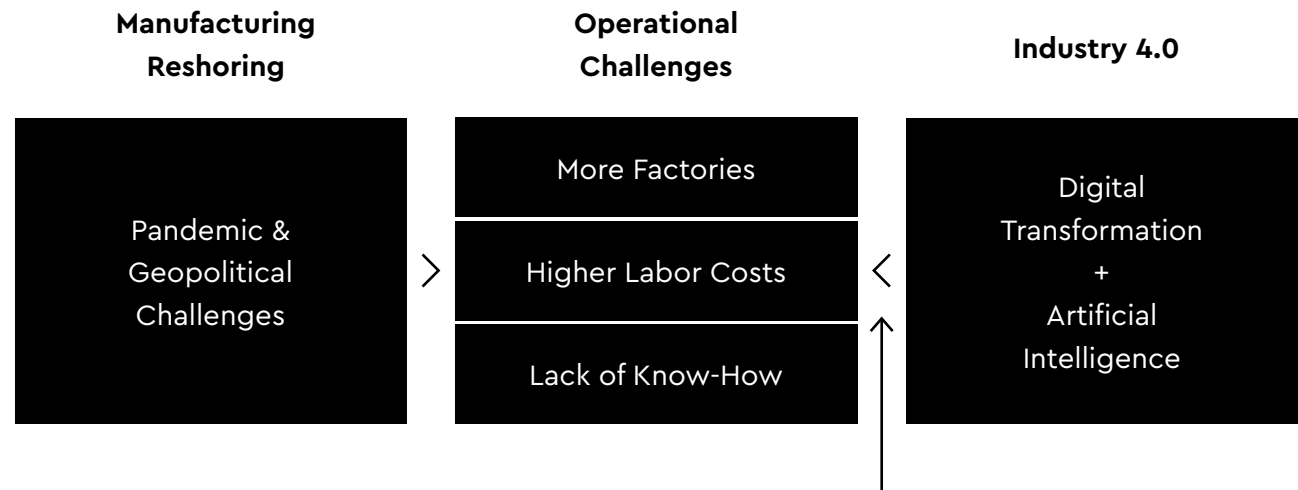

## Reliable Funding

Strategic initial investment of \$55m by SK Group

# Why Manufacturing?

The potential of transforming the manufacturing industry through AI is huge, with an expected impact of \$100b by 2025 for the semiconductor industry alone.

Industrial AI Perfected  
by Korean Manufacturing

# Life at Gauss Labs

**Joonho**

*Project Manager*

Gauss Labs always motivates me by providing growth opportunities through various forms of support.

**Brendon**

*VP of Research*

Gauss Labs is the ideal workplace for those who love to make a huge impact and be energized by the new challenges of entering a new ocean.

**Abhimanyu**

*Director of Product Engineering*

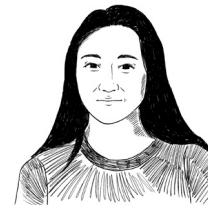

We have an A+ global team. You'll work with great scientists and engineers from whom you'll keep learning to grow.

**Michelle**

*Director of Talent Acquisition*

Our competitive edge is that our team is already composed of industry veterans with deep domain knowledge and technical expertise to lead Gauss Labs's mission.

**Joanne**

*Business Operations Manager*

We value collaboration and learning. Through open discussion and ownership, we create team synergy that propels us forward.

**Sophia**

*Senior Applied Scientist*

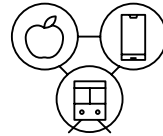

At Gauss Labs, every day is a new day facing a series of challenges, which make us stronger. With world-class AI experts, we keep calm and normalize AI.

# Benefits

Gauss Labs supports productive work environment, physical and mental health, and continuous growth of all Gaussians.

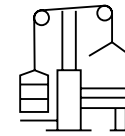

## Work

Commuter  
Benefits

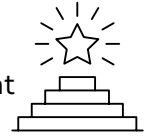

## Health

Gym  
Support

## Growth

Self-development  
Allowance

# Solutions

We revolutionize manufacturing by providing actionable insights from machine-generated data. Our solution, Panoptes, enables customers to manufacture their products better, less costly, more and faster.

### **Shatter the limit of conventional image metrology.**

Panoptes IM is an integrated image metrology solution that overcomes the limits of conventional measurement tools through state-of-the-art computer vision technology.

### **Reinvent process monitoring and control.**

Panoptes VM predicts key features of a process outcome based on equipment sensor data for real-time process monitoring and control.

### **Revolutionize the workflow of process engineers.**

Panoptes RCA is an AI-powered assistant that provides process engineers with real-time analysis of anomalies and alarm events in manufacturing lines.

# Recruiting

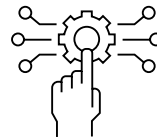

Unlock your potential at Gauss Labs! You will work with other top talents who will constantly challenge and inspire you. There is no limit to what you can learn and achieve. Join the future of industrial AI with Gauss Labs.

## Open Positions

### Research

Develops cutting-edge AI/ML techniques to solve the most challenging problems in manufacturing.

### Program Management Office

Identifies business opportunities and manages diverse projects strategically.

### Product Engineering

Leads architecting, design, development, and launch of core software products.

## Recruiting Process

\* The recruiting process may differ by position.
