to find out more

This June, embark on an immersive research journey with IRIS@NUS, a fully-funded programme hosted by the NUS Graduate School.

Over a two-month period, selected students will work alongside leading professors and researchers on novel and cutting-edge research challenges. There will also be plenty of opportunities to experience the vibrant campus life offered by NUS.

WHO IS THIS FOR?

Outstanding third- and fourth-year undergraduates, and first-year master's students across all fields, who demonstrate:

- Excellent academic performance.
- A genuine interest in academic research.

Priority will be given to students from underrepresented countries.

Shortlisted candidates will be called for an interview with their assigned faculty mentors.

HOW TO APPLY

- Applications must be submitted via the Graduate Admissions System. For a detailed application process, [click here](#).
- Required materials: CV, research-focused personal statement.
- Optional but recommended: transcript, and two recommendation letters.
- Application deadline: 5 March 2025.
- For enquiries, please contact cdegradresearch@nus.edu.sg.

BENEFITS

- Close mentorship and guidance from NUS professors.
- Exposure to state-of-the-art research and facilities at NUS.
- Opportunity to network with fellow students and NUS researchers
- Financial support: SGD 600 travel allowance, SGD 1,200 monthly stipend; Complimentary on-campus accommodation
- A certificate of completion issued by NUS Graduate School.
