

Quarantine Guidelines

for Foreign Students

Protect ourselves against **COVID-19**
by living smart and safe

COVID-19 Quarantine Guideline

02 Stay alone in an isolated place (gatherings are prohibited)

- Avoid contact with outsiders
- If inevitable, do not face one another, wear masks, and keep your distance at least two meters
- * Stay in a temporary residential facility if you have difficulties staying alone (see “Temporary Residential Facilities”)

04 Take the coronavirus PCR test within the fixed period by using designated modes of transportation

- All incoming travelers are required to take the test twice
 - * 1st test: On the day of arrival or the next day
 - * 2nd test: Before release from quarantine
(Except travelers from specified countries. Please consult your local public health center.)
- You will be transferred to a hospital or a residential treatment center when tested positive

06 Comply with the health guidelines during self-quarantine

- Follow personal hygiene practices (washing hands, sanitizing, etc.)
- Open the window frequently to ventilate
- If possible, stay in the place with a bathroom and sink that you can use alone (If you share a bathroom and sink, disinfect them after use)

01 Avoid outdoor activities to prevent the transmission of infection (14-day self-quarantine is obligatory)

- According to the ‘Infectious Disease Control and Prevention Act’, all incoming travelers must self-quarantine from the day of entry until 12:00 of the 14th day (e.g., travelers entering Korea on Jan 1 are released at 12:00, Jan 15)
- * Persons who violate quarantine regulations, such as those leaving their quarantine sites without permission, shall be fined pursuant to Article 80 of the Act

03 Take designated buses or taxis when moving from the airport to the place of residence

- Do not use public transportation
- Head to your place of residence directly and do not visit any other places

05 If you need to go out to see physicians or for other inevitable reasons, you must contact the local public health center first

- Inform your local public health center of any symptoms, including fever, cough, etc.

07 Install “Self-Quarantine Safety Protection App” and record health conditions daily

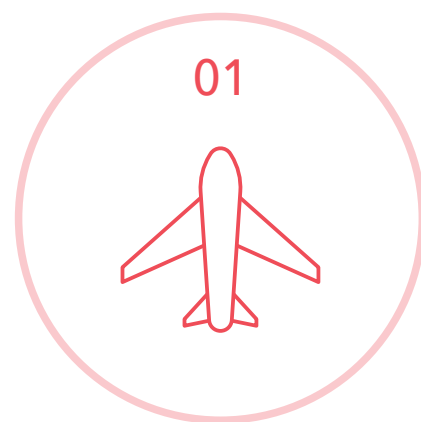

- Monitor and record your health conditions (2 times a day) via the app, which are then automatically sent to the public health officer in charge
- Please note that alerts will be sent to the public health officer in charge in case of detection of persons leaving their quarantine sites without permission

Arrival Procedure

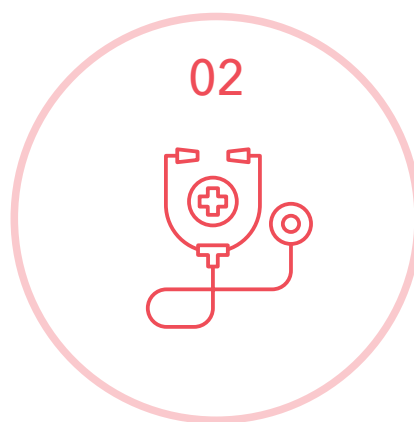

Please visit Seoul City Foreign Students Information Booth at Terminal 1, Incheon International Airport, for more information

* Directions to the information booth will be provided at the airport

Daily Life During Quarantine

Persons who violate quarantine regulations, such as those leaving their quarantine sites without permission, shall be **fined and deported**

Temporary Residential Facilities (Quarantine Hotels)

Q What are temporary residential facilities?

A Temporary residential facilities refer to single-room accommodations where inbound foreign students who are placed under 14-day quarantine can stay safely. **Leaving and reentering one's room after check-in are prohibited.** Persons found to be in violation shall be reported.

Q Who can apply?

A All foreign students who are currently studying in Seoul are eligible.

* Charges are **borne by the student**. A facility will be **assigned randomly** on a first-come-first-served basis.

Q How to apply?

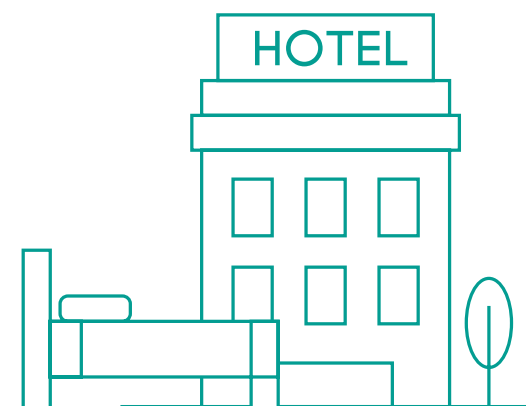

A Sign-Up on <http://www.globalenskr.com> (or scan the QR code) ► Choose Accommodation, Option and Get your Invoice ► Payment ► Receive Confirmation Email

- * Room Charge: KRW80,000/day
- * Meal: KRW20,000/day (optional)
- * Pick-up Service: KRW100,000

Q What are other things to know about temporary residential facilities?

A A safe quarantine environment is made possible through provision of services necessary during the quarantine period, stationing of staff, access control, and regular disinfection.

Daily Life During Quarantine

Persons who violate quarantine regulations, such as those leaving their quarantine sites without permission, shall be **fin**ed and **de**ported

- ◎ **Features:** Small purchases accepted, fast delivery, food delivery (pizza, fried chicken) available

#Overseas credit cards (Visa, Master Card), WeChat Pay, Alipay are accepted

Guide to Self-Diagnosis (Monitoring)

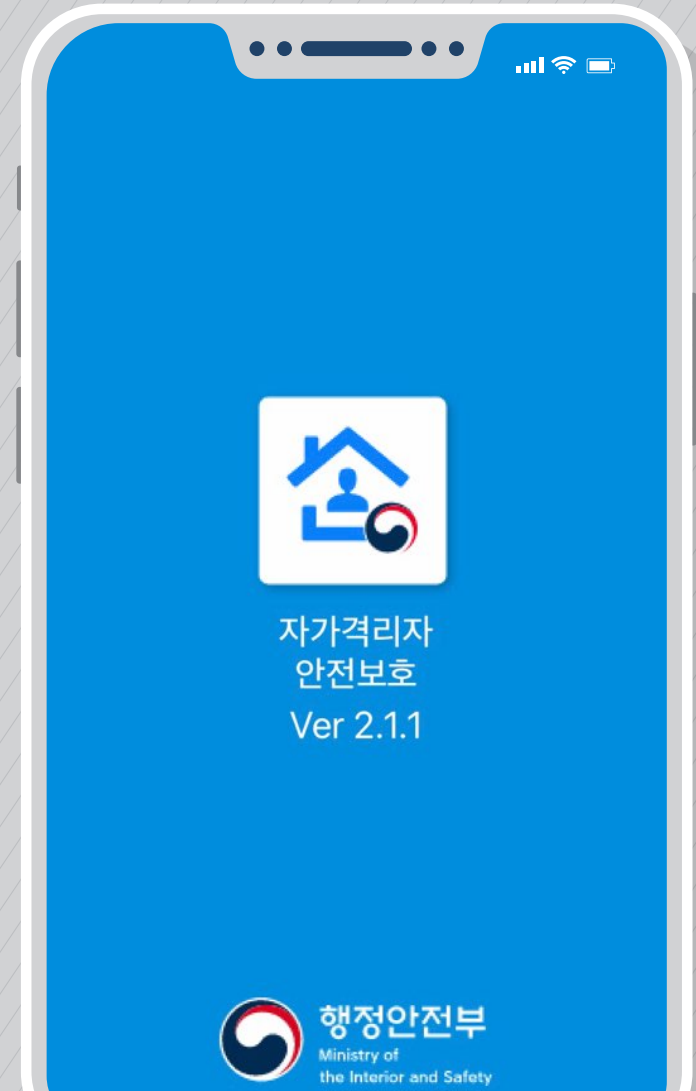

Self-Quarantine Safety Protection App Monitoring

- > Results of self-diagnosis will be automatically transferred to the public health officer in charge
- > Alerts will be sent to the public health officer in charge in case of detection of persons leaving their quarantine sites without permission
- > Quarantine guidelines and contact information of the public health officer in charge are provided

How to Conduct Self-Diagnosis

- > Record body temperature twice a day; submission of extra diagnosis results is possible
- > Contact the public health officer in charge immediately when app is not functioning

※ Phone inactivation may be considered unauthorized leaving (alert → confirmation call)

Waste Treatment

01

Put your household wastes including food wastes into a medical waste bag

02

Spray disinfectant inside and on the surfaces of the waste bag

03

Store the waste bag in a separate space

04

Contact your local public health center (or public health officer in charge) if waste disposal is necessary

- Storing leftover food waste in the refrigerator helps reduce smell and keep bugs out
- **Waste disposal outside the quarantine site is prohibited until release from self-quarantine!**
